

STARHAUS

Sustainable, Technological, Accessible and Resilient human- centric manufacturing supporting
the New European Bauhaus
through synergies between customized production and consumption models

Press release

Celebrating the Successful First Six Months of STARHAUS @Eurocities 2024

May 30th, 2024 – STARHAUS team is proud to celebrate the successful completion of its first six months. This milestone marks significant progress in our mission to foster sustainable development, community engagement, and innovative solutions, all aligned with the New European Bauhaus principles of beauty, sustainability, and inclusiveness.

Oana Buzatu and Roxana Pop from Cluj-Napoca City Hall Representing STARHAUS at EuroCities 2024

**Sustainable, Technological, Accessible and Resilient human- centric manufacturing supporting
the New European Bauhaus
through synergies between customized production and consumption models**

Since our Kick-off Meeting (KoM) in December 2023, the **STARHAUS** team has worked tirelessly to initiate all planned activities. We have launched several key initiatives and made substantial strides, including the development and deployment of our project website and social media channels. These platforms are now vital hubs for updates, resources, and community engagement. We encourage everyone to visit our website and follow us on Facebook, X (formerly Twitter), and LinkedIn to stay informed and connected.

In addition to our digital launch, **STARHAUS** has actively participated in major events. Our partners, INOVA+ and Deep Blue, represented **STARHAUS** at the New European Bauhaus Festival 2024 in Brussels. This event provided a fantastic opportunity to engage with other stakeholders committed to creating beautiful and sustainable spaces. Furthermore, **STARHAUS** participated in EuroCities 2024, organized by Cluj-Napoca City Hall. This event brought together key stakeholders from across Europe, with Babes-Bolyai University and Wiz Research joining as participating partners. We showcased our collaborative efforts and dedication to urban innovation and sustainable development to a wider audience.

Looking ahead, **STARHAUS** is excited about the upcoming phases of our project. Our team remains committed to fostering community engagement, advancing sustainable practices, and promoting inclusivity. Our next project meeting is scheduled for June 12th, 2024, in the picturesque city of Siena. This meeting will provide an opportunity to review our progress and plan our next steps. Additionally, we are launching the Open Calls in the coming days to invite innovative proposals and participation from various stakeholders. This initiative aims to further our mission and engage the community in meaningful ways.

We are grateful to all our partners, stakeholders, and supporters. Your involvement and enthusiasm drive our mission forward and inspire us to achieve even greater milestones. For more information and to stay connected, please visit our website and follow us on social media.
